

Report from A Rocha planting at Hart Road Wetland, Aldinga, SA 19th July 2026

12 Friends of A Rocha, assisted by Leanne Lawrence (Onkaparinga council's environmental volunteer coordinator), enjoyed a successful event planting 60 plants from the council, 20 Sheoak trees grown and donated by Paul Rosser (Aldinga EcoArts village) and 40 *Microlaena Stipoides* (Weeping Rice-grass) grown at the Forktree Nursery (Forktree Project, Myponga) and donated by Paul Green, a Friend of Arocha, making a total of 120 plants! Tree guards were put around the plants along with dead branches to protect them from the abundance of hungry kangaroos. We were grateful for Paul Green's excellent plant knowledge and advice.

We enjoyed chatting while planting and over afternoon tea. Thanks, Leanne, for the hot drinks
